Our Client

OCIO - Digital Investment Office

Reports to the
Office of the Chief
Information Officer
(OCIO)

Manages capital
investment funding
for projects that aim
to improve digital
services for citizens.

Ministries that are
awarded funding
must report their
performance
quarterly.

Ministry of
Citizens' Services

The Business Problem

- Reports are submitted manually via excel spreadsheets.
 - Manual process is time consuming.
 - Subjective fields cause data discrepancies.

Data captured in reports is difficult to aggregate.

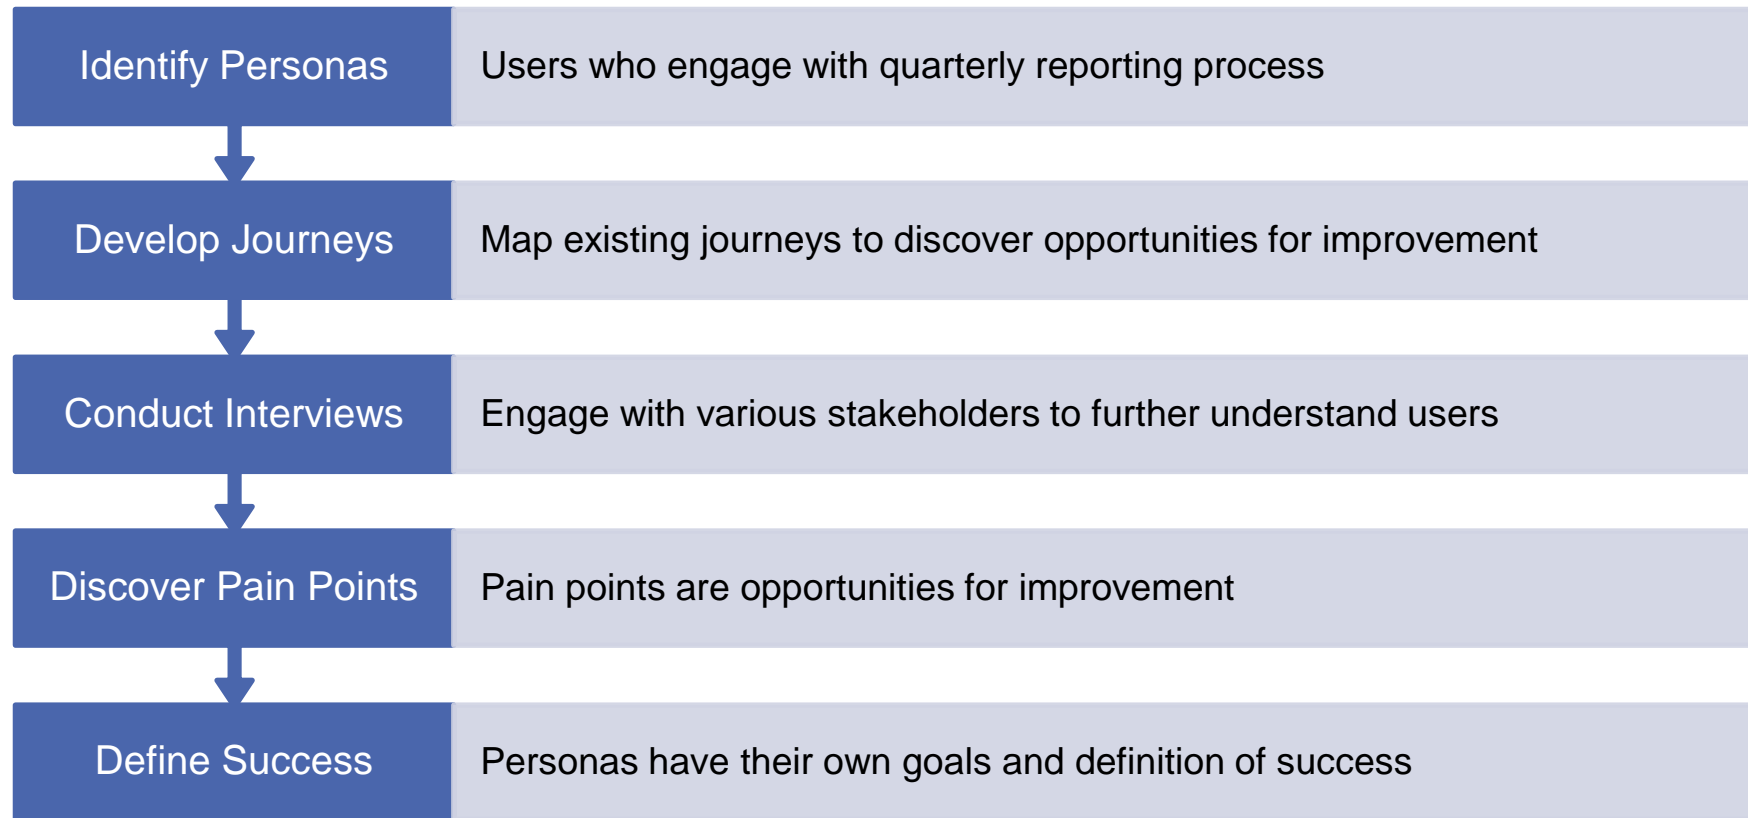

Reviewers spend a significant amount of time cross referencing documents for simple changes.

Our Approach

Sprint	1	2	3	4	5	6
Focus	User Research	Design	Ramp Up	Feature	Refine	Document

- Adopt the Agile project development methodology.
- Transform existing processes into an efficient modern user experience.

Understanding & Transforming Existing Processes

Our Solution

Developed a Suite of Wireframes

Created a Robust Solution Architecture

Integrate Key Performance Indicators

Delivered a Working Proof of Concept

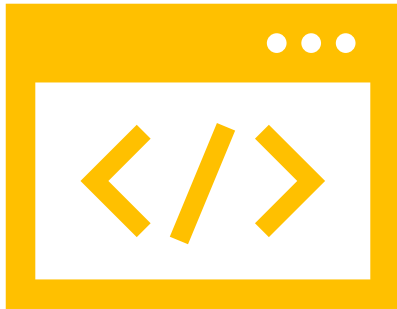

Hosted Solution Prototype on BCDevExchange OpenShift Environment

Provided Documentation & GitHub Repository

Our Prototype

Built Using MERN Stack

MongoDB

Express

React

NodeJS
